### **Congress Condemns Iran for Resuming Nuclear Activities**

Congressman Adam Schiff is an original co-sponsor of a resolution condemning Iran for violating its international nonproliferation obligations and expressing support for efforts to bring Iran to the United Nations Security Council. In January, Iran resumed enriching uranium at its Natanz facility; this was a violation of earlier agreements with the international community.

"I am hopeful that with a united Congress and a united international community, we can prevent Iran from acquiring nuclear weapons which could destabilize the entire region and which could be used to carry out Iran's professed desire to wipe millions of its neighbors off the map," said Congressman Schiff.

Congressman Schiff was selected to serve on the House International Relations Committee's Subcommittee on Europe and Emerging Threats. This

committee is responsible for overseeing our relationship with NATO and the European Union and important bilateral relationships like those with Britain, Germany, France, Turkey, Armenia and other nations.
